

Jichikai (Residents' Association) Entry Recommended

Each district in Japan has a local organization called Jichikai, Residents' Association. This association is involved in organizing community events, district cleaning, snow removal, and mutual cooperation among residents in the case of disaster, etc. The Jichikai's name has to be shown on specified garbage bags when you dispose of garbage/trash. In addition, Fukui City Hall distributes newsletters as well as a variety of information for its residents through all Jichikais. Entering your district's Jichikai is important for you to live safely in your community and to get along with neighbors. We highly recommend you to join the Jichikai in your district.

_____ Name of Jichikai (Residents' Association)

_____ Chair person

_____ Contact number
