

## Neighborhood Community Association Entry Recommended

Each living district in Japan has an organization called Neighborhood Community Association. This organization is involved in organizing various events, district cleaning, snow removal, mutual cooperation in a time of disaster, etc. Through these associations the City Hall distributes "Municipal Newsletter" as well as a variety of information. In addition, Neighborhood Community Association's name must be written on a specified garbage bag when you dispose of domestic trash.

Neighborhood Community Association is an important organization if you want to live together with district residents. We highly recommend you to join your district's Neighborhood Community Association.

If interested, please fill out the form below the cutoff line and submit to the chair of your Neighborhood Community Association.
